**STRATEGY & PROCESS DESCRIPTION**

Investing primarily in companies within the broad large cap market segment, as captured by the large cap Russell and S&P indices. Our large cap value portfolio searches for and invests in value opportunities within the largest segment of the equity markets.

Our research-driven approach to value investing and portfolio construction defines our Traditional Equity platform. We first apply systematic quantitative analysis to evaluate companies and industries with favorable value and return characteristics. Approximately 35% of the stocks in the product universe make it through our two proprietary screening models and qualify for further research. Our experienced equity research teams then perform comprehensive company and industry analysis. Our multi-step recommendation process encourages constructive debate among members of the investment team. We rely on strong buy/sell disciplines to ensure adherence to our value and quality philosophy.

Disclosures

Total Product Assets includes the Large Cap Value portion of balanced large cap value accounts. Current Sector Allocation, Portfolio Characteristics, and Top Ten Holdings are based on a separately managed representative account invested in WEDGE Capital Management's Large Cap Value strategy. Returns and Risk Statistics are based on the Large Cap Value composite. All information is presented as of 09/30/2020. Excluding the Average Turnover, Portfolio Characteristics are provided by BNY Mellon Asset Servicing Workbench. The Top Ten Holdings are not intended as recommendations of the equities shown and carries no implication about past or future performance.

This material is presented for informational or educational purposes only. It should not be considered investment advice nor should it be interpreted as a recommendation about the management of your portfolio. In providing these materials, WEDGE Capital Management is not acting as a fiduciary as defined by any applicable laws or regulations.

WEDGE Capital Management L.L.P. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. WEDGE Capital Management L.L.P. has been independently verified for the period January 1, 2013 through December 31, 2019. The verification report is available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. WEDGE Capital Management L.L.P. is an SEC registered independent investment adviser owned by seventeen general partners. The firm was founded in 1984 and provides a range of equity, fixed income, and balanced investment strategies to institutional and other investors. The firm's policies for valuing portfolios, calculating performance, and preparing compliant presentations, as well as a list of all composite descriptions, are available by contacting the Performance Group, WEDGE Capital Management, 301 S. College Street, Suite 3800, Charlotte, NC 28202 or performance@wedgcapital.com.

Performance data is historical and is no indication of future results. Valuations and returns are in U.S. dollars. Beginning April 2004 performance includes accruals. Internal dispersion is calculated using equal-weighted standard deviation of all portfolios that were included in the composite for the entire year. Investment returns reflect the reinvestment of dividends and/or interest. Gross performance results are presented before management fees but after all trading expenses.

Large Cap Value: The Large Cap Value composite was created on 01/01/1993. The composite consists of discretionary accounts of WEDGE Capital Management L.L.P. with a minimum of \$1MM invested in the Large Cap Value strategy. Prior to 2012, any discretionary taxable accounts were included in a separate composite. Beginning July 1, 2018, an account must be below the minimum size threshold at the end of the month before it is removed from the strategy composite. Prior to July 1, 2018 the exclusion period was three months instead of one month. The Large Cap Value strategy is actively managed and invests in companies traded on U.S. exchanges and which are primarily within the broad large cap market segment as captured by the large cap Russell and S&P indices. Net returns are calculated by subtracting the highest applicable management fee (0.75% on an annual basis, or 0.06% monthly) on a monthly basis from the gross composite monthly return. The management fee schedule is as follows: 0.75% of the first \$10MM under management, 0.65% on the next \$15MM, and 0.50% on all assets over \$25MM. See Part 2A of Form ADV for details of management fees. The appropriate index is the Russell 1000 Value Index which measures the performance of the large cap value segment of the U.S. equity universe. It includes those Russell 1000 Index companies with lower price-to-book ratios and lower forecasted growth values. The index includes the reinvestment of dividends. Investors cannot invest directly in an index.
