STRATEGY & PROCESS DESCRIPTION

We combine our Small- and Mid-Cap portfolios to consider companies primarily within the broad small and mid cap market segments as captured by the small and mid cap Russell and S&P indices. We adhere to each portfolio's specific fundamental research and quantitative parameters. Once a stock reaches 1.5 times the upper market cap limit, it will be sold.

Our research-driven approach to value investing and portfolio construction defines our Traditional Equity platform. We first apply systematic quantitative analysis to evaluate companies and industries with favorable value and return characteristics. Approximately 35% of the stocks in the product universe make it through our two proprietary screening models and qualify for further research. Our experienced equity research teams then perform comprehensive company and industry analysis. Our multi-step recommendation process encourages constructive debate among members of the investment team. We rely on strong buy/sell disciplines to ensure adherence to our value and quality philosophy.

WEDGE Capital Management L.L.P. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. WEDGE Capital Management L.L.P. has been independently verified for the period January 1, 2013 through December 31, 2020. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. GIPS is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. WEDGE Capital Management L.L.P. is an SEC registered independent investment adviser owned by sixteen general partners. The firm was founded in 1984 and provides a range of equity, fixed income, and balanced investment strategies to institutional and other investors. The firm's policies for valuing investments, calculating performance, and preparing GIPS Composite Reports, as well as a list of all composite descriptions, are available by contacting the Performance Group, WEDGE Capital Management, 301 S. College Street, Suite 3800, Charlotte, NC 28202 or performance@wedgcapital.com.

Performance data is historical and is no indication of future results. Valuations and returns are in U.S. dollars. Beginning April 2004 performance includes accruals. Internal dispersion is calculated using equal-weighted gross of fee standard deviation of all portfolios that were included in the composite for the entire year. The three-year annualized standard deviation measures the variability of the composite gross returns and the benchmark returns over the preceding 36-month period. Investment returns reflect the reinvestment of dividends and/or interest. Gross performance results are presented before management fees but after all trading expenses.

Small Mid Cap Value: The inception date and the creation date for the Small Mid Cap Value composite is 04/01/1997. The composite consists of discretionary accounts of WEDGE Capital Management L.L.P. with a minimum of \$1MM invested in the Small Mid Cap Value strategy. Prior to 2012, any discretionary taxable accounts were included in a separate composite. Beginning in April 2020 an account will not be added back to the composite until it is greater than the minimum asset level on both the first and last day of the month. At that point, it will be added to the composite as of the month in which it exceeded the minimum level. Beginning July 1, 2018, an account must be below the minimum size threshold at the end of the month before it is removed from the strategy composite. Prior to July 1, 2018 the exclusion period was three months instead of one month. The Small Mid Cap Value strategy is actively managed and invests in companies traded on U.S. exchanges and which are primarily within the broad small and mid cap market segment as captured by the small and mid cap Russell and S&P indices. Net returns are calculated by subtracting the highest applicable management fee (0.85% on an annual basis, or 0.07% monthly) on a monthly basis from the gross composite monthly return. The management fee schedule is as follows: 0.85% on total assets. See Part 2A of Form ADV for details of management fees. The appropriate index is the Russell 2500 Value Index which measures the performance of the small to mid cap value segment of the U.S. equity universe. It includes those Russell 2500 Index companies with lower price-to-book ratios and lower forecasted growth values. The index includes the reinvestment of the dividends. Investors cannot invest directly in an index.
